

FROM BLACK HOLES AND THE BIG BANG TO DARK ENERGY AND DARK MATTER: Successes of Einstein's Theory of Relativity

A lecture presented by Professor Hubert L. Bray of Duke University

Hubert L. Bray, Ph.D., is a world-renowned mathematician who specializes in geometric analysis, general relativity and astrophysics.

Monday, December 13, 2010, 6:30-7:30 p.m.

Alumni Memorial Building, Room 32

***Free and open to the public**

Reception to follow

Parking is available in the University Center Parking Garage located on Phillip Fulmer Way. Bring parking voucher to lecture for validation.

Supported by the National Science Foundation as part of the Southeast Geometry Seminar conferences, UT Knoxville's Department of Mathematics, and UT Knoxville's College of Arts and Sciences.
