

MGSC Meeting Minutes

October 10, 2018

Attending: Lacy, Ryan, Wieczorek

September PDL Recap

- Went well! There was a lot of discussion and good range within the panelists.
- We had plenty of food but there was not a lot of extra surplus.
- In the future, we could have people submit them and talk about them as examples.

SSSF Updates

- We've had 3 people, 4 submissions.
- There is a spreadsheet to help us track everything.
- Next week or the week after, we should send another reminder.
- We will do a mass delete of documents later in the spring; send a reminder to everyone with materials in there so that they know that the documents are being deleted.

October PDL Update

- October 16 at 11:10 am in 308 H
- Panelists: Dr. Bay (Maryville College), Dr. Bourni, Dr. Plaut
- Panelists will receive questions by end of week (in question folder)
- Chick-fil-a catering (one on Kingston in Bearden)
- Send out invitations to everyone today (due by Friday at 3)
- Contact them as soon as possible (estimate 20-25 people)

November PDL Planning

- Alex is in charge
- Topic: negotiating - try to get Nina Fefferman to do it by herself (we are open to whatever she wants to do)

Fall Town Hall Planning

- Tentatively scheduled for Friday, November 16 (after colloquium if it exists)
- Maggie will work on getting a room scheduled for that
- More to come later

Apparel Sale

- We are interested in the American Triblend hooded full-zip sweatshirt (in either black triblend or smoke triblend) with the University of Tennessee math logo on one side (2 colors).
- The price point for 24-49 sweatshirts is \$25.65; for 50-99 sweatshirts is \$24.45. There is a \$50 art fee. This assumes 2 colors printed on front with nothing on the back. We could sell preorders for \$28 and \$30 for sales after the order.
 - There is an additional cost for 2XL and 3XL that we would pass along to the purchasers
- Our goal is to have orders placed so that they can be picked up the week of November 26. This gives us time to distribute orders and do post-order sales at the end of the semester.
- Jack is reaching out to Threds to have questions answered:
 - Can we see the two colors to help us choose?
 - Does Threds have access to the math department logo that we used previously?
 - Can we get a proof of the artwork?
 - What's the latest we can place an order to have them by the week of the 26th?
- Looking ahead, we want to set up a Venmo account for the MGSC to make payments easy.
