Text Acquisition Options

The following are options available regarding the required textbook for this class:

Option #1: Purchase the custom package of the book + Enhanced Web Assign access from the bookstore. Special, reduced pricing has been arranged by the department.

Option #2: Use the link https://www.cengagebrain.com/tl1/en/US/storefront/US?cmd=catProductDetail&showAddButton=true&ISBN=978-0-618-95847-4 to get access to discounts direct from the publisher of up to 50% using their online store and distribution. Savings for rental can be 50% or more. You can check out the entire online store at www.cengagebrain.com, but the link above goes straight to the required text for this course. If you go this route, you will still need to purchase Web Assign access. There will be more information about this option presented the first week of class.

Option #3: Purchase the Web Assign + Ebook option direct from Web Assign's website for $60.00. You can do this after classes begin because Web Assign does grant 14 days free access. After that, you will be prompted to enter a passkey or purchase one direct from them.

Option #4: Source a used book on your own, and purchase the Enhanced Web Assign passkey direct from the campus bookstores or from Web Assign's website, www.webassign.net for $35.
