Remarks
• The lectures will be posted on the website. The website will also contain a list of suggested exercises from the text and other good stuff like solved problems, sample tests.
• Homework will be assigned on WebAssign. You will be notified of the posting and due dates.
• Attendance is important for obvious reasons.
• All the exams are “closed-book”, however, students are allowed to bring 1-2 pages of formulas.
• The hour exams will be administered during the recitations. The quizzes will also be given (expect one a week) during the recitations. I may surprise you once in a while with a quiz during the MWF lectures!
• I will follow the usual (10 point) grading system: 90 – 100 ⇒ A, etc. with the usual plus or minus rule of 3 for A–, B+, e.g. 87 ⇒ A–, 83 ⇒ B+ etc.
• If you have questions about general policy, make sure to ask me or the T.A.’s.
